

Supplementary Fig. S3

Colour by RAS mutation status (K-, N- or H-RAS):

- At least one RAS gene mutant
- All RAS genes wild type
- Not known (includes cell lines where one or two RAS genes may be wild type but others unknown)

Shape by PIK3CA or PTEN mutation status:

- PIK3CA and/or PTEN mutant (includes cell lines where one gene is mutant and the other unknown)
- PIK3CA and PTEN wild type
- Status of PIK3CA and/or PTEN unknown (includes cell lines where one gene is confirmed wild type and other unknown)
