

Supplemental Figure S1 Legend:

Effects of gemcitabine and BMS-754807 therapy on mouse body weight. Nude mice were subcutaneously injected with AsPC-1 cell ( $0.75 \times 10^6$ ). Fourteen days after tumor cell injection, therapy was started with gemcitabine and BMS-754807 for 2 weeks. Mouse body weight was measured twice a week. Data are representative of mean values  $\pm$  standard deviation from 6-8 mice per group.
