

A. ELISA analysis of FG129 and CH129 binding to sialyl-Lewis^a-HSA. Error bars represent the mean \pm SD of duplicate wells. B. COLO205 cell surface binding titration of FG129 and CH129. ELISA EC₅₀ values and K_d values (cell binding) are listed in Table 1. C. HCT-15 cell surface binding titration of FG129 and CH129. D. BxPC3 cell surface binding titration of FG129 and CH129.
